EXTERIOR OF PREMISES.

PREFACE.

IN compliance with the repeatedly expressed wishes of numerous Patrons, we have the pleasure of issuing an ILLUSTRATED EDITION of our CATALOGUE.

Alphabetical Arrangement has been preferred, as facilitating Reference, and the Selection of Instruments and Cases. Such Illustrations have been introduced as have been considered would be more generally appreciated, or as being descriptive of approved articles, Modern Improvements, or New Instruments and Appliances.

It has been considered undesirable to increase the bulk of the Volume by illustrating many Instruments long familiarly known, and others affording no special advantages.

We employ the first English and Foreign Workmen, and supply Articles of the best Manufacture and Finish only, while our Extensive Assortment enables us to execute any orders with which we may be honoured with satisfaction, and at the most reasonable prices.

Appreciating the liberal patronage bestowed on our Firm for the past Two Hundred Years, we embrace this opportunity of thanking our Patrons, at Home and Abroad, who have favoured us with their esteemed orders, and assure them our best attentions will at all times be given to merit a continuance thereof.

EVANS & WORMULL.

London, 1876.

NOTE:—

CUTTING INSTRUMENTS can be fitted in Ebony or Ivory Handles,
Plain or Carved.

Similar Instruments, for Pocket Cases, in Pearl, Ivory and
Tortoiseshell.

NON-CUTTING INSTRUMENTS can be Nickel or Silver-plated or
Gilt, as desired.

CABINETS & CASES can be made of Mahogany, Rosewood, Walnut-
wood or Oak.

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

GENERAL CATALOGUE.

MISCELLANEOUS CASES OF INSTRUMENTS.

ALPHABETICALLY ARRANGED.

Amputation Cases.

No. 1. SET OF AMPUTATION INSTRUMENTS, Mounted in Ebony Handles and Silver Ferrules, consisting of—

Aneurism Needle—Artery Forceps
Bell's Elevator—Bone Forceps
Bullet Forceps—Bullet Scoop—Catlin
Exploring Trocar—Fenestrated Forceps
Two Bistouries—Five Scalpels
Four Elastic Gum Catheters
Four Liston's Amputation Knives
Framed Metacarpal Saw
Gum Lancet—Hydrocele Trocar
Large Abdominal Trocar, with Introductory Canula
Large Saw, with Spare Blade
Large Tang Scalpel—Lenticular
Long Gun-shot Probe
One dozen Curved Needles

No. 5 and 8 Silver Male Catheters
Straight and Curved Tooth Forceps
Silver Female Catheter—Skull Forceps
Straight Finger Saw—Tablet of Ligature Silk
Tooth Key—Tooth Punch
Torsion Forceps—Trepine Brush
Two Curved Bistouries (one each, Probe and Sharp-pointed)
Two Elevators—Two Field Tourniquets
Two Hey's Skull Saws—Two Seton Needles
Two Sets of Spare Fittings for Tourniquets
Two Tenaacula—Two Tourniquets
Two Trephines

The whole fitted in a handsome Brass-bound Mahogany Case, lined with silk velvet.

No. 2. SET OF AMPUTATION INSTRUMENTS, Mounted in Ebony Handles and Silver Ferrules, consisting of—

Aneurism Needle—Catlin
Double Silver Tracheotomy Canula
Elevator—Ferguson's Lion Forceps
Hey's Skull Saw—Improved Bullet Extractor
Improved Bullet Forceps, with Movable Blades
Large Saw—Liston's Bone Forceps
Long Curved Throat Forceps
Long Gun-shot Probe
Long Urethra Forceps—Necrosis Forceps
Nélaton's Probe—Short Curved Probang
Six Scalpels—Skull Forceps
Artery Forceps, with Fenestrated Points
Double Probang—Straight Finger Saw
Straight Scissors—Tenaeculum—Thread
Tablet of Silk and Silver Wire
Three Elastic Gum Catheters

Three Electro-plated Catheters
Three Liston's Amputation Knives
Torsion Forceps—Trepine Brush
Trocar and Silver-mounted Glass Syringe, for Hydrocele
Twelve Needles—Two Anel's Probes
Two Curved and two Straight Bistouries
Two Field Tourniquets
Six Serre-fines
Two Spiral Tourniquets
Two Tooth Forceps
Two Trephines
Two Ware's Styles for Fistula Lachrymalis
Uvula Scissors

In handsome Mahogany Case, lined with silk velvet, or Solid Block

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Amputation Cases—*contd.*

No. 3. SET OF AMPUTATION INSTRUMENTS, Mounted in Ebony Handles and Silver Ferrules, consisting of—

Aneurism Needle—Assilini's Tenaculum
 Catlin—Dissecting Forceps
 Framed Metacarpal Saw
 Improved Bullet Extractor
 Spring Artery Forceps
 Knife for the Circular Operation
 Large Saw—Ligature Silk, Tablet of
 Liston's Bone Forceps—Needles

One each Narrow and Broad Finger Knife
 Two Curved Bistouries, Sharp and Blunt Point
 Tenaculum—Three Field Tourniquets
 Two Liston's Knives for the Flap Operation
 (7 in. and 9 in.)
 Two Scalpels—Two Spiral Tourniquets
 In handsome Brass-bound Mahogany Case,
 lined with silk velvet, or without

No. 4. PORTABLE FIELD CASE, in strong Leather Cover, with Straps, Lock and Key, &c. consisting of—

Amputation Saw, with Shifting Back
 Aneurism Needle
 Bone Forceps, with Spring
 Bullet Extractor—Bullet Forceps
 Bullet Scoop—Catlin—Caustic Case
 Double Probang—Elevator
 Finger Knife—Finger Saw—Gum Lancet
 Gun-shot Probe—Gutta-percha Tissue
 Hernia Bistoury—Hey's Skull Saw
 Hydrocele and Exploring Trocar
 Isinglass Plaster on Lawn
 Six Scalpels—Adhesive Plaster
 Large Trocar and Canula
 Lint—Liston's Artery Forceps

Liston's Needle—Metacarpal Saw
 Needles—Nélaton's Probe—Oiled Silk
 One each Large and Small Amputation Knife
 Silver-mounted Glass Syringe
 Silver Tracheotomy Canula
 Skull Forceps—Straight Scissors
 Tablet of Silk and Plated Wire—Tenaculum
 Tenotomy Knife—Three Field Tourniquets
 Tooth Key—Tooth Punch—Trephine
 Two Curved Bistouries
 Two Dieffenbach's Artery Forceps
 Two Laryngeal Brushes
 Two Plated Male Catheters
 Two Tooth Forceps

No. 5. FIELD OPERATION CASE, Mounted in Ebony Handles and Silver Ferrules, consisting of—

Artery Forceps—Bone Nippers
 Bullet Forceps—Catlin
 Electro-plated Catheter—Elevator
 Fenestrated Forceps—Necrosis Forceps
 Field Tourniquets—Hey's Skull Saw
 Large Saw—Needles
 One each Large and Small Amputation Knife
 One Long Electro-plated Gun-shot Probe

One Screw Tourniquet—Skull Forceps
 Straight Finger Saw
 Tablet of Ligature Wire and Silk
 Tenaculum—Three Scalpels
 Trepanning Scalpels—Trephine
 Trephine Brush—Two Elastic Gum Catheters
 Mahogany Case, lined with silk velvet, or
 solid blocked

--	--

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Capital Cases—No. 1 *contd.*

Two Amputating Saws—Two Compressors
 Two Copper-hooked Retractors—Two Gouges
 Two Directors, Broad and Narrow
 Two Double-hooked Retractors
 Two Double Tracheotomy Canulas, two sizes
 Two Extra Tapes—Two Field Tourniquets
 Two Hey's Saws, Straight Edges
 Two Neurosis Forceps, Straight and Curved
 Two Oesophagus Forceps, Lateral and Perpendicular Curves

Two Finger Knives
 Two Petit's Tourniquets—Two Tenacula
 Two Polypus Forceps, Straight and Curved
 Two Scissors, Straight and Crooked
 Twenty-four Needles of various sizes, Straight and Curved
 Two Trephines
 Vulsellum Forceps
 Whalebone Spatula
 Mahogany Case

No. 2.

Amputating Saw—Artery Forceps
 „ „ with Shifting Back
 Bone Forceps—Bullet Forceps—Scissors
 Forceps, Neurosis—Gun Shot Probe
 Half-a-dozen Needles—Tenaculum

Silk, Thread and Wire—Three Scalpels
 Three Amputating Knives
 Tourniquet—Mahogany Case
Also see Amputation and Army and Navy Regulation Cases and Plates

Chiropodist's Case.

Contains Six to Twelve Knives of various shapes—Assorted Files—Forceps

Nail Nippers—Scissors—Solution Bottle
 In neat Leather Case

Cleft Palate Instrument Cases.

No. 1.

Curved Blunt Uterine Scissors
 Eight Durham's Needles
 Four Vulsellum Forceps—Four Wire Adjusters
 Knife, with Rack—Needle Holder, straight
 Set of Three Gags—Seventeen Knives
 Six Canula Needles, Simpson's
 Straight Uterine Scissors

Three Long Liston's Forceps
 Twelve Needles, Plated
 Two Needle Holder Forceps, Straight & Curved
 Two Staphyloraphy Needles, one each Sharp and Blunt—Two Tablets of Silk
 Mahogany Case, lined with Silk Velvet, or Solid Block

No. 2.

Angled Knife—Curved Scissors
 Long-Catch Forceps, fine Tenaculum Points
 „ „ „ with broad Serrated Points
 „ „ „ with fine Serrated Points
 Needle with Long Handle, Blade Curved at nearly Right Angle
 Plated Wire
 Sharp Hook with Long Handle
 Suture Catcher—Two Curved Steel Separators

Two Cards Plaited Silk
 Two Needles in Handles for Silk, Curved Right and Left
 Two Straight Sharp-Pointed Knives, Long Handles
 „ Blunt „ „ do.
 Two Tubular Needles for Wires—Wire Twister
 Mahogany Case, lined with Silk Velvet, or Solid Block

Cranium and Dissecting Case.

Blowpipe—Bowel Scissors—Brain Knife
 Double Hook—Hammer
 Large Dissecting Forceps
 Large Saw, Amputating size
 Large Scissors—Set of Chain Hooks

Small Dissecting Forceps—Spine Chisel
 Straight Chisel—Three Cartilage Knives
 Three Scalpels, one Tang
 Twelve Large Needles, Straight
 Whalebone Spatula—Mahogany Case

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Cupping Cases.

LARGE.

Air Pump—Four Glasses for Dry Cupping
 Large Scarificator, with spare Lancets
 Spirit Bottle

Temple Scarificator, with spare Lancets
 Two Nests of Four Glasses
 Mahogany Case, velvet lined

SMALL.

Scarificator—Spirit Bottle
 Torch

Two Nests of three Glasses
 Mahogany Case, velvet lined

Dental Cabinet and Cases.

DENTAL CABINET, in Rosewood, Walnut or Mahogany, lined with Silk Velvet, with Drawers and Trays for Instruments, Gold Foil, &c.

Bottles for Stopping, &c.
 Gum Lancet, Spring Back
 Mouth Mirror
 Mouth Spatula
 Pair Excising Forceps
 Screw for Stumps
 Strong Scissors, for Foil, &c.
 Tooth Syringe
 Twelve or eighteen superior Scaling Instruments,
 in Ivory Handles

Twelve or eighteen superior Stopping Instru-
 ments, in Ivory Handles
 Twelve or twenty-four Excavators, in Steel
 Handles, or fitting Socket Handle
 Twelve pairs Circular-jointed Tooth Forceps
 Four pairs Circular-jointed Tooth Forceps for
 Children
 Twelve Rose Drills, in Ivory Handles, or fitting
 Socket Handle
 Two Stump Elevators—24 Dental Files

DENTAL CASE—Small.

Four Scalers and Stoppers
 Four Sheets Gold Leaf

Three Excavators and Rosehead
 Amalgam and Gutta Percha Case

Neat Leather Case.

DENTAL CASE—Large.

Twelve Dental Files
 Dental Drills or Excavators
 Fourteen Scalers and Stoppers

Four Sheets Gold Leaf—One oz. Amalgam
 Stick of Gutta Percha
 Neat Leather Case

Dislocation and Fracture Apparatus Case.

Suitable for Hospitals, Dispensaries, &c.

Arm Sling—Cotton Wool, 1 lb.
 Dextrine, 2 lbs.
 Double Inclined Plane, McIntyre's
 Ellis's Clavicle Apparatus
 Gutta Percha for Splints, 1 lb.
 Gutta Percha Tissue, 4 yds.
 Iron Extension Splint
 Iron-jointed Thigh Splint

Jointed Elbow Splint—Plaster of Paris, 1 lb.
 Radius Splint—Salter's Leg Sling
 Set of Dislocation Apparatus
 Set of Duncan's Ratan Cane Splints
 Set of Japanned Leg Splints
 Six Pasteboards for Splints
 Twenty-four Handloom Bandages
 Strong Box, with Patent Lock

Dissecting Cases.

No. 1.

Blowpipe—Dissecting Hooks—Four Scalpels
 Scissors—Set Chain Hooks

Six Needles, Half-Curved—Spring Forceps
 In Japanned Tin Case

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Dissecting Cases—*contd.*

No. 2.

Blowpipe—Dissecting Hooks—Six Scalpels
Two Scissors—Section Knife—Set Chain Hooks

Six Needles, Half-Curved—Spring Forceps
In Mahogany Case

Ear Instrument Case.

Brunton's Lamp
Four Pair Forceps, different Curves and Shapes
Set of Plated Canulas—Roll of Wire

Leroy's Instrument for Extracting Foreign
Bodies from Ear
Leather Case, lined with Silk Velvet

Electro-Magnetic Machines in Case.

Of various power, with all modern Improvements. Arranged for applying Continuous or Intermittent Currents or Shocks, with Insulated Handles, Brushes, Sponge Holders, Electrodes adapted for various parts of Body, &c. In Neat Leather or Mahogany Case.

Electro-Plate Cases.

No. 1. Containing Twelve Fish Eating Knives and Forks, with Plain Plated, Ivory or Pearl Handles, or Ornamental ditto, and Plain or Chased Blades

No. 2. Containing Twelve Dessert Knives and Forks, with Handles similar to Case 1 In Elegant Rosewood or Mahogany Case

No. 3. Fish Carving Knives and Forks, with Handles similar to Case 1, and plain or chased Blades

All the above fitted in Neat Case.

No. 4. Electro-Plate Cabinets fitted for any number of Persons, and to suit any requirements

Enema and Stomach Pump Cases.

Both combined, with improved Flute Key Lever, Œsophagus Tube and Elastic and Metal Rectum Pipe

In Mahogany Case

EVANS and WORMULL's Patent Enema Apparatus, requiring only one hand to work it; recommended for Portability, Simplicity, Facility of Use, and Practical Advantages
In Neat Case

Entomological Case.

Hooks—Forceps—Scissors—Section Knife—Specimen Box—Various Knives—Morocco Case

Eye Accident Case.

Cilia Forceps—Fixing Forceps—Spud or Scoop
Speculum—Skein of Silk

Straight and Curved Needle
Neat Case

Eye Instrument Cases.

LARGE CASE, No. 1.

Bowman's Spoon—Broad Iris Forceps
Broad Needles—Cilia Forceps—Director
Critchett's and Schuft's Spoons
Curette and Cystotome—Curved Iris Scissors
Desmarre's Forceps—Four Græfe's Knives

Director and Case with Probes—Hulke's Needle
Double Platinum Iris Hook—Inside Speculum
Fine Straight Scissors—Lens Hook
Macnamara's Knife and Double Spoon
Maunoir's Scissors—Narrow Fixing Iris Forceps

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Eye Instrument Cases.

LARGE CASE, No. 1—*contd.*

Ordinary Straight Knife—Scarpa's Needle
 Packet of Twelve Needles—Secondary Knife
 Set of Probes in Case
 Short Curved Iris Forceps—Spatula
 Stop Speculum—Strabismus Hook, Cowell's
 Strabismus Scissors—Straight Iris Forceps
 Two Curved and two Straight Iridectomy Knives

Three Hanks each Black and White Silk
 Two Short Needles
 Two Sichel's Knives
 Two Stop Needles—Tyrrell's Needle
 Weber's Canaliculus Knife
 Mahogany Case, lined with Silk Velvet, or
 Solid Blocked

CASE No. 2.

Eight Needles—Eyelid Retractor
 Six Knives
 Set of Bowman's Probes—Speculum

Three Forceps—Three Scissors
 Mahogany Case, lined with Silk Velvet, or
 Solid Blocked

CASE No. 3.

Bowman and Critchett's Spoon
 Curette and Cystotome—Curved Iris Scissors
 Fixing Forceps—Gräfe's Tortoiseshell Spoon
 Iridectomy Knives, Curved and Straight
 Long Curved Iris Forceps

Maunoir's Scissors
 Short Curved Iris Forceps—Stop Speculum
 Three Gräfe's Knives
 Mahogany Case, lined with Silk Velvet,
 or Solid Blocked

CASE No. 4.

Cilia Forceps—Curette and Cystotome
 Curved and Straight Iridectomy Knife
 Desmarre's Forceps—Excision Scissors
 Fixing Forceps—Director and Probes in Case
 Lens Hook—Long Curved Iris Forceps
 Maunoir's Scissors—Sichel's Knife
 Short Curved Iris Forceps—Stop Speculum

Strabismus Hook, Cowell's
 Strabismus Scissors
 Two Broad Needles—Two Gräfe's Knives
 Two Stop Needles—Tyrrell's Hook
 Weber's Canaliculus Knife
 Mahogany Case, lined with Silk Velvet, or
 Solid Blocked

Field Hospital Equipment Case.

Case of Surgical Instruments to be included in the Equipment of a Field Hospital.

Finger Saw—Four Artery Forceps
 Knife to scrape off Periosteum
 Liston's Straight Bone Forceps
 Needle for inserting Wire for Sutures
 Ordinary Amputation Saw
 Silk Ligature
 Screw Tourniquets, large and small—Scissors
 Six Scalpels—Spring Artery Forceps
 Tenaculum—Twenty-four Surgical Needles

Twelve Acupressure Needles, various sizes
 Two 10½ inch Straight Amputation Knives
 Two 9 inch ditto ditto
 Two 7½ inch ditto ditto
 Six inch ditto ditto
 Wax — Catgut — Wire for Sutures — Tablet
 Suture Silk
 Mahogany Case lined with Silk Velvet or
 Solid Blocked

Fracture Apparatus Case.

For Regimental and Field Service.

Flannel or Serge of Open Texture
 Gutta Percha Tissue
 Jointed Thigh Splints, Wood
 Loose Wove Bandages—Pasteboard Splints
 Splint for Fracture of Radius, Wood

Plaster of Paris, in ½-lb. and 1 lb. Tins
 Set of Lined Splints
 Sets of Leg Splints, Wood, Right and Left
 Tow, 1 lb.—Cotton Wool, 1 lb.—Old Linen Sheet
 In Strong Box, with Patent Lock and Key

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Galvanic Apparatus Case.

Bunsen's, Daniel's, Gaiffe's, Stöhrer's, or other Batteries of various power, with accessories complete, in Mahogany Case

Conductors for applying Electricity to the Bladder, Ear, Spine, Teeth, Throat, Uterus, &c., and Galvanic Cautey Apparatus, with Ecraseurs, can be supplied with same

H. M. Emigration Service Case. See PLATE 7.

According to Requirements of the Emigration Commissioners. To be provided by the Surgeon.

CASE OF POCKET INSTRUMENTS as No. 3, page 70. SMALL SET OF TOOTH INSTRUMENTS IN POUCH.

OPERATION CASE, containing—

Bone Forceps—Bullet Forceps—Catlin
Midwifery Forceps
Six Bougies in Case
Four Elastic Gum Catheters—Elevator
Four Electro-Plated Male Catheters and Female
ditto—Finger Saw—Hey's Skull Saw
Large and Small Amputation Knives

Amputation Saw—Large Saw
Needles and Ligature Silk
Sliding Artery Forceps—Spiral Tourniquet
Straight Finger Saw—Trepine and Brush
Tenaculum—Trachea Tube
Three Scalpels—4 Lancets in Case
Fitted in Mahogany Case

In addition to the above, it is recommended that the following Instruments be procured:—

Cupping Case, Trocar and Canula, Trepine and Elevator, Craniotomy Forceps, Perforator, Blunt Hook, and Crotchet

Hernia Instrument Case.

Brodie's, Key's, or Stanley's Silver Director
Davis's, Ferguson's, Roshmund's, or Wutzer's
Instruments for the Radical Cure
Hernia Bistoury—Scalpel—Forceps

Tablet of Silk and Silver Wire
Assorted Curved Needles
Wood's Hernia Needles
Neat Morocco or Mahogany Case

Hospital Field Panniers.

FOR ARMY OR VOLUNTEERS.

These Panniers are supplied singly or in pairs, constituting the complete authorized equipment.

NO. 1.—INSTRUMENT PANNIER

Contains Complete set of Operation Instruments &c., in accordance with existing Army Regulations.

NO. 2.—MEDICINE PANNIER

Contains Medicines, Medical Comforts, and Sundries, according to existing Army Regulations.

Hydrocele Case.

Solution Bottle—Small Brass Syringe, Tinned Trocar and Canula. Mahogany Case.

Hypodermic Syringe Cases.

With or without Medicated Discs.

Buzzard's, Pravaz's, or Wood's Hypodermic Syringe, or Improved ditto, with Plain or Screw Piston Rod, Spare Fine Gold Pipes, or with Platinum Points. In Neat Morocco Case.

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Hypodermic Syringe Cases, Veterinary.

Mavor's Improved, with Spare Points and Solution Bottle. In Neat Morocco Case.

Inhaler Cases.

Fitted for Æther and Chloroform, and with Spray Apparatus.

Sibson's, Clendon's, Coleman's, Townley's, or other approved Inhaler, or Clover's Apparatus, with Improved Æther or Chloroform Bottle, and Richardson's Æther Spray Apparatus, with Double or Treble Jet. In Neat Leather Case

Instrument Cabinets and Cases.

Fitted for Surgeons, Hospital, Cottage Hospital or Dispensary use, Dentists, Veterinary Surgeons, &c. In Mahogany, Rosewood, or Walnut

Laryngoscope and Ophthalmoscope Case (combined).

Morell Mackenzie's, or other Laryngoscope, with Liebrich's Ophthalmoscope and Glasses Complete. In Neat Morocco Case

Lithotomy Cases.

No. 1. LARGE CASE.

Double Curved Scoop—Female Staff
Female Sound—Four Central Grooved Staffs
Four Lateral Grooved Staffs
Side Curved Scoop
Four Ordinary Sounds—Medium Blunt Gorget
Four Stone Forceps, Curved

Four Stone Forceps, Straight—Key's Knife
Thompson's Sound—Two Ferguson's Knives
Two Liston's Knives
Two Lithotomy Tubes of German Silver
Improved Female Urethra Dilator
Mahogany Case

No. 2. SMALL CASE.

Double Scoop—Female Staff—Ferguson's Knife
Four Male Staffs—two Central, and two Lateral
Liston's Knife—Two Elastic Gum Tubes
Two Male Sounds and one Female

Two Stone Forceps, Curved
Two Stone Forceps, Straight
Two Web Bandages
Mahogany Case

Lithotritry Cases.

No. 1. LARGE CASE.

Brodie's Lithotrite—Catheter Scoop
Clover's Apparatus adapted to Syringe
Long Urethra Forceps, with extra Blade,
Curved and Straight
Short Urethra Forceps—Syringe, with Stop-Cock

Two Bladder Catheters, with Spiral Stillettes
Improved Lithotrite, with Flat Blades
„ Small Fenestrated Lithotrite
Mahogany Case lined with Silk Velvet or
Solid Block

No. 2. SMALL CASE.

Brodie's Lithotrite
Bladder Catheter with Spiral Stilette
Clover's Apparatus adapted to Syringe
Lithotrite with Flat Blade

Syringe, with Stop Cock
Urethra Forceps
Mahogany Cases, lined with Silk Velvet, or
Solid Block

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Lithotritry Cases—*contd.*

CASE 3.

Catheter Scoop	Long Canula Urethra Forceps, with Straight and Curved Blades—Pair Urethra Forceps
German Silver Syringe with Stopcock	Three Silver Catheters, with Elastic Gum Stilette, Nos. 11, 12, 14
Lithotrite Fenestrated No. 12, full in the Shaft	Two Sir H. Thompson's Plated Hollow Sound
" " No. 10, " "	Brass-bound Mahogany Case, handsomely fitted
" " No. 8, " "	
" Non-Fenestrated Flat Bladed	

Medicine Cases and Chests.

Adapted for all requirements, and fitted for Colonial, Domestic, Emigrants, Ship and Surgeons Use.

Merchant Service Cases.

Medicine Chests and Cases adapted for any number of Crew and Passengers, with Bougies and Catheters, Enema Apparatus, Instruments and Medicines, Bandages, Splints, &c., to suit any requirements. Also Cases suited for Surgeons to Ships carrying few Passengers.

Microscope Cabinet.

Animalculæ Glass	Neutral Tint Glass, Beale's
Compound Achromatic Microscope, with superior Adjustments	Object Glasses, &c.
Diaphragm Condenser—Eye-Pieces—Forceps	Plates—Polarizing Apparatus and Selenite
Mirrors—Movable Mechanical Stage	Section Knife—Specimen Drawer
	Complete in Mahogany Cabinet

Midwifery Cases.

No. 1.

Barnes' Midwifery Forceps	Lee's Premature Labour Instrument
" Craniotomy Forceps	Smellie's Perforator
Blunt Hook and Crotchet—Female Catheter	Portable Leather or Mahogany Case

The above can also be supplied Nickel-Plated.

No. 2.

Blunt Hook and Crotchet	Simpson's Long Midwifery Forceps
Churchill's or Murphy's Craniotomy Forceps	" Perforator
Elastic Gum Catheter—Fœnum Scissors	" Short Midwifery Forceps
Lee's Stilette for Puncturing Membranes	Vectis and Decapitator
Plated Female Catheter	Neat Leather or Mahogany Case

The above can be also supplied Nickel-Plated.

Minor Operation Case.

Aneurism Needle—Bone Nippers	Sliding Fenestrated Forceps
Button-pointed Bistoury—Dissecting Forceps	Straight-edge Bistoury—Straight Scissors
Dressing Forceps—Five Scalpels	Tablet of Silk, Evans and Wormull's
Hernia Bistoury—Liston's Needle—Scalpel	Tenaculum—Tendon Knife—Thread
Saw, with Movable Back—Scoop Director	Tumour Hook—Wax
Screw Tourniquet—Sharp-pointed Bistoury	Mahogany Case, lined with Silk Velvet or Solid Block
Simpson's Wire Needle—Six Needles	

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Moffitt's Case or Pouch.

Dressing Forceps—German Silver Spatula
Half-ounce Thread
Pocket Knife

Probe and Director—Scissors—Six Needles
Twenty-four Pins
Morocco Case

Navy Surgeon's Complete Case.

In accordance with existing Admiralty Regulations. See Plate 6.

Navy Assistant Surgeon's Case.

Amputating Saw—Brush—Catlin
Elastic Gum Catheters—Double Elevator
Fahrenheit's Thermometer—Gum Lancet
Hey's Saw—Skull Forceps
Tooth Key with 3 Spare Claws and Punch
Long Probe
Metacarpal Saw with two Blades
Pair Artery Forceps
Pair Bone Nippers, Liston's
Pair Bullet Forceps
Four Pairs Tooth Forceps, Curved and Straight

Probang, Double—Seton Needle in Seales
Six Scalpels and Raspatory
Tablet of Ligature Silk, Evans and Wormull's
Two Amputating Knives
Two Silver Catheters
Two Tenacula—Two Tourniquets
Two Trephines and Brush—Two Trocars
Twelve Curved Needles—Two Lancets
Strong Mahogany or Oak Case lined with
Velvet, Lock and Key, and Name Plate

POCKET CASE AS Fig. 4. Plate 2.

N.B.—When an Assistant Surgeon is appointed to a Ship not bearing a Surgeon, he is required to provide himself with the following articles in addition to the above:—

Set of Common Splints—Six Bougies in a Case—Three Roller Bandages—Six Pewter Syringe.

Ophthalmoscope Case.

Beale's, Bader's, Coccini's, or other Approved Ophthalmoscope, with Reflector and Magnifying Lens.

In Neat Morocco Cases

Ophthalmoscope with Laryngoscope (combined).

In Neat Case.

Ovariectomy Case.

Cautery Irons
Hutchinson's, or Spencer Wells's Improved
Ovariectomy Clamps
Ovariectomy Hook

Spencer Wells's Long Serrated Forceps
Three Ovariectomy Syphon Trocars, Large,
Medium and Small
Morocco Case

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Peninsular and Oriental S. N. Company's Cases.

According to Regulations. (To be provided by the Surgeon.)

A complete Case of Amputating and Trepanning Instruments, Mounted in Ebony Handles and Silver Ferrules, consisting of:—

Amputation Saw—Aneurism Needle	Two Curved Bistouries—Lenticular
Bone Forceps—Bullet Forceps—Catlin	Two Hey's Skull Saws
Circular Knife—Elevator	Two Liston's Knives for the Flap Operation
Hernia Bistoury and Director	Six Scalpels—Six Lancets
Hydrocele Trocar and Syringe	Two Straight Finger Knives and Saw
Large Trocar and Canula for Paracentesis Abdominis—Curved Trocar—Midwifery Forceps	Three Silver Male Catheters
Twelve Needles—Long Probo	Female Catheter
Clinical Thermometer—Spring Artery Forceps	Six Gum Elastic Catheters—Six Metallic Bougies
Tang Scalpel—Tourniquet—Trepine & Brush	Fitted in Brass-bound Mahogany Case, complete, Lined with Silk Velvet, or Solid Block

POCKET CASE AS No. 3. Page 70.—CUPPING CASE, Complete—ASPIRATOR, Complete in Case.

POUCH OF TOOTH INSTRUMENTS.

Perineal Case.

O Staff—Syme's Sigmoid Catheter—Two Lister's Staffs—Two Large Curved Needles—Case

Pocket Instrument Cases.

CASE No. 1—SURGEON'S POCKET INSTRUMENTS.

Abscess and Tendon Knife—Artery Forceps	Hernia Director—Steel Ear Scoop
Bow Forceps—Caustic Case—Crooked Scissors	Hernia Knife, Curved—Hypodermic Syringe
Clinical Thermometer—Double Bistoury	Straight Scissors—Tablet of Silk, Evans and Wormull's
Director, with Aneurism Needle	Torsion Forceps—Two Pair Probes
Dressing Forceps—Exploring Trocar	Twelve Needles
Female Catheter—Finger Knife and Scalpel	Morocco Case
Gum Lancet and Tenaculum—Spatula	

CASE No. 2.

Aneurism Needle—Bow Forceps	Syme's Tenotomy Knife
Clinical Thermometer—Double Bistoury	Two Probes
Finger Knife and Double-edge Scalpel	Tenaculum and Gum Lancets
Hypodermic Syringe—Pair Scissors	Torsion Forceps, with Knob
Plated Caustic Case—Polished Forceps	Wakley's Forceps, Fenestrated
Six Needles—Spatula—Tablet of Silk	Handsome Leather Case, with Patent Lock

No. 3.—THREE-FOLD POCKET CASE.

Aneurism Needle—Crooked Scissors	Silver Caustic Case—Six Needles
Clinical Thermometer, in Plated Case	Small Fenestrated Artery Forceps
Director and Steel Ear Scoop	Spring Forceps—Straight Scissors
Double Bistoury—Dressing Forceps	Syme's Tenotomy Knife—Tablet of Silk, Evans and Wormull's
Exploring Trocar, in Ivory Case	Tenaculum and Gum Knife—Torsion Forceps
Finger Knife and Scalpel—Pair Probes	Handsome Morocco Case
Hypodermic Syringe, in Plated Case	

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Post-Mortem Cases.

No. 1. LARGE.

Blow Pipe, Brass—Brain Knife—Double Hook
 Bowel Scissors—Chain Hooks, set of
 Dissecting Hook—Extra Large Hammer
 Hawk-bill Bone Forceps—Head Rest
 Large Dissecting Forceps
 Large Dissecting Scissors—Skull Chisel
 Plated Blow Pipe—Saws—Spine Chisel
 Six Scalpels, one Tang

Straight Chisel
 Small Dissecting Forceps
 Small Dissecting Scissors
 Three Cartilage Knives, various sizes
 Twelve Long Needles, Straight and Curved
 Whalebone Spatula—Wrench
 Mahogany Case, Plain, or Lined with Silk
 Velvet

No. 2. SMALL.

Blow Pipe—Bowel Scissors—Brain Knife
 Dissecting Forceps—Dissecting Scissors
 Double Hook—Hammer—Large Scalpel
 Saw—Set of Chain Hooks
 Small Dissecting Forceps
 Straight Chisel—Spine Chisel

Three Scalpels, one Tang
 Three Cartilage Knives, different sizes
 Twelve Large Needles, Straight and Curved
 Whalebone Spatula
 Mahogany Case, Plain or Lined with Silk
 Velvet

No. 3.

Bowel Scissors—Brain Knife
 Cartilage Knife
 Double Hook—Finger Saw—Jointed Blowpipe
 Five Scalpels, different sizes—Head Rest
 Tang Scalpel
 Post-Mortem Hammer—Post-Mortem Saw

Set of Chain Hooks—Six Curved Needles
 Six Straight Needles—Small Blowpipe
 Straight Chisel—Two Dissecting Forceps
 Two Dissecting Scissors—Vertebre Chisel
 Whalebone Spatula
 Brass-bound Mahogany Case

Rectum Instrument Case.

Curling's Vulsellum Forceps with Catch
 Clamp for Hemorrhoids—Fistula Director
 Fistula Knife—Fistula Forceps, Sliding
 Fistula Hook—Fistula Scissors—Liston's Needle
 Pile Forceps—Speculum with Slot

Three Fistula Bistouries
 Vulsellum Forceps Needle Holder
 Straight Forceps—Weiss' Rectum Dilator
 In Mahogany Case, Lined with Silk Velvet,
 or Solid Blocked

Resection and Trephining Instrument Case.

American Bullet Forceps—Brush
 Bow Saw with Spare Blade—Chain Saw
 Forceps for Grasping Bone—Grooved Chisel
 Improved Bullet Extractor—Long Silver Probe
 Liston's Large Bone Forceps, Curved
 Sequestrum Forceps—Lenticular—Scissors
 Narrow Straight Saw—Saw with Shifting Back
 Langenbeck's Forceps—Strip of Sheet Zinc
 Six Different Resection Knives, two pointed,
 one Curved, one Button ended, one with
 Blunt Point

Two Blunt Wound Hooks, Retractors
 Two Elevators, one Simple, one Double
 Two Trephines one of $\frac{1}{8}$ inch, one of $\frac{9}{16}$ inch
 Diameter, with Shifting Pyramid
 Two Raspatories, Hook Shaped and Goatfoot
 Shaped
 Two Strong Pointed Hooks
 Mahogany Case, Lined with Silk Velvet, or
 Solid Blocked

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Royal Mail Service Cases.

According to Regulations. *See* Plate 7.

AN OPERATING CASE, containing

Metacarpal Saw, with Spare Blade
 Amputating Saw—Two Flap Knives
 Two Circular Knives—Catlin
 Pair of Bone Forceps—Finger Saw
 Two Tenacula—Assilini's Tenaculum
 Pair of Artery Forceps
 Pair of Spring Forceps—Trepine and Brush
 Elevator—Two Hey's Saws—Tang Scalpel
 Two Scalpels—Two Finger Knives

Three Bistouries
 Two Trocars, Abdominal and Hydrocele
 Pair of Bullet Forceps—Probe
 Aneurism Needle—Hernia Director
 Tourniquet—Twelve Needles
 Skull Forceps and Brush—Spring Probang
 Tablet Silk—Thread
 Strong Case lined with Velvet, or Mahogany
 Solid Block

Set of Pott's Splints, Arm, Leg, and Thigh—Twenty Calico Rollers—Tape—Enema Apparatus—
 Six small Glass or Pewter Syringes.

MIDWIFERY POUCH, containing

Pair of Forceps—Lever—Perforator—Blunt Hook and Crotchet—Pair of Craniotomy Forceps.

In addition to the above, the Surgeon is required to provide the following Instruments:—

POCKET CASE, containing

Spatula—Straight Scissors—Crooked Scissors
 Dressing Forceps—Curved Bistoury
 Scalpel—Long Silver Caustic Case
 Artery Forceps

Director and Probes—Gum Lancet
 Three Lancets—Exploring Needle
 Suture Needles—Thermometer
 Straight Bistoury

CUPPING CASE.

Large Scarificator—Temple Scarificator—Eight Glasses—Torch and Bottle.

TOOTH INSTRUMENT CASE.

Fox's Tooth Key—Four Forceps, various—Tooth Punch—Double Gum Lancet

CASE OF CATHETERS AND BOUGIES.

Four Silver Catheters—Four Solid Metal Bougies—Four Gum Elastic Catheters—Silver Female Catheter.

Scrotal Tumour Case.

Long Straight Director, with bent handle
 14 inches long
 Three Long Scalpels
 Cord, $1\frac{1}{2}$ yards long, with Cross Handles

Brass Ring, $\frac{3}{4}$ -inch diameter
 Mahogany Case, lined with Silk Velvet or
 Solid Block

Sets of Instruments in Cases adapted for various Requirements.

Set of Amputation Knives and Scalpels, *see* page 60
 „ Bougies and Catheters, *see* page 61
 „ Cleft Palate Instruments *see* page 62
 „ Ear Instruments, *see* page 64
 „ Eye Instruments, *see* page 65
 „ Hernia Instruments, *see* page 66
 „ Lithotomy and Lithotritry Instruments, *see* p. 67
 „ Midwifery Instruments, *see* page 68

 „ Veterinary Instruments, *see* page 75

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Stomach Pump and Enema Cases.

(Combined with Œsophagus and Rectum Tubes.)

Stricture Instrument Case.

Set of Wakley's Stricture Instruments—Selection of Bougies and Catheters à Boulé, and Silver or Plated Catheters, Canulas, and Prostate Catheter.

In Morocco Leather Case

Or with Sir H. Thompson's, or Holt's Stricture Dilators, or Syme's Stricture Staff.

Students' First Pocket Case.

Syme's Abscess Knife and Scalpel
Dressing Forceps—Bistoury and Finger Knife
Pair of Probes
Plated Caustic Case—Scoop Director

Six Needles—Small Fenestrated Forceps
Small Dressing Scissors
Spring Forceps
Neat Morocco Case

Students' Larger Pocket Cases. *See page 70.*

Surgeons' Pocket Cases. *See page 70.*

Suspended Animation, Apparatus for, in Case.

Consisting of Circular Spring Bellows, fitted with Nostril Pipes and Ear Tubes.
Mahogany Case.

Table Cutlery Case.

Twelve Table and twelve Dessert Knives, in Ivory or Electro-Plated Handles.
Neat Mahogany or Oak Case

Taxidermist's Case.

Blow Pipe—Ebony Scalpels—Pair Scissors
Pair Long Forceps—Pair Smaller Forceps
Pair Common Forceps—Preserving Paste

Pair Flat Cutting Pliers—Small Straight Saw
Pair Round Nosed Pliers—Set of Chain Hooks
Handsome Mahogany Case

Throat Instrument Case.

Two pair Morell Mackenzie's Throat Forceps,
opening antero-posteriorly.
Two pair Morell Mackenzie's Throat Forceps,
opening laterally
Tonsil Guillotine—Uvulatom

Laryngoscope, Mirrors, Reflector and Lamp
Tongue Depressor—Set of Rigid Wire Loops.
Laryngeal Sound—Laryngeal Syringe
Set of Brushes—Double Probang.
Folding Morocco Case.

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

Tooth Instrument Cases.

FOR UPPER PERMANENT TEETH.

Containing Forceps for Incisors, Canines, and Bicuspid—First and Second Molars, Right—Ditto, Left.
Third Molar

FOR LOWER PERMANENT TEETH.

Containing Forceps for Incisors, Canines, and Bicuspid	Set of six Elevators to fit one Handle
First, Second, and Third Molars	Tooth Key and three Claws
Straight and Bent Stumps—Plain Elevator	Spring Gum Knife
	Morocco, or Mahogany Case

FOR CHILDREN.

Plain Elevator—Tooth Key and three Claws—Set of six Elevators to fit one Handle—Three-piece Gum Knife

Tracheotomy Case.

Dilating Forceps—Two Blunt Hooks—Set of three Silver Trachea Tubes—Two Small Scalpels

Transfusion Apparatus Case.

Graily Hewett's Apparatus with two Silver Pipes, Forceps, Funnel, Scalpel, Lancet, and Thermometer. In neat Portable Morocco Case	Playfair's Transfusion Apparatus, and others complete In Neat Case
---	--

Trocar Case.

Complete Set	Trocar for Puncturing Bladder per Rectum
Exploring Trocar—Glass Syringe	Trocar for Puncturing Chest—Solution Bottles
Large Trocar for Ascites—Trocar for Hydrocele	Morocco Leather Case

Urinometer Case.

With Test Tubes, Re-agents, and Thermometer.

Graduated Trial Glass—Specimen Bottle—Test Tubes—Test Paper—Thermometer—Urinometer
Neat Morocco Case

Uterine Case.

With, or without Medicated Suppositories.

Caustic Case and Lint Holder	Simpson's or other approved Uterine Sound
Cross-action Forceps	Speculum—Sponge Tent Introducer
Scarifying Lancet	Morocco Case

Vaginal Instrument Case.

Marion Sims's Straight Sound	Set of Ferguson's Plated Specula
Simpson's Uterine Sound—Lint Holder	Long Torsion Forceps
Uterine Knife, with Rack	Uterine Speculum Forceps—Uterus Syringe
Uterine Polypus Forceps—Tent Probe	Hysterotome, Single—Seven Knot Tyers
Priestley's Dilator—Long Caustic Holder	Six Sea Tangle Tents—Tablet of Silk
Set of four Vaginal Knives	Six Needles
Bozeman's Speculum	Neat Case

EVANS & WORMULL, 31, STAMFORD STREET LONDON.

Vesico-Vaginal Fistula Cases.

CASE 1.

Curved Scissors, Long—Straight
 Spring-catch Vulsellum
 Self-holding Needle Forceps
 Tenaculum-pointed Spring Forceps
 Duck-bill Speculum
 Two Long Sharp-pointed Straight Knives
 Two Bent Angular Knives, right and left

Fine Single Hook—Wire Twister
 Strong Vulsellum
 Two Tubular Needles for Wire
 Six Needles—Silver Wire
 Urinal Bag and Tube
 Mahogany Case, lined with Silk Velvet or
 Solid Blocked

CASE 2.

Sims's Speculum—Self-holding ditto
 Straight Long Scissors—Curved ditto ditto
 Right and Left Double-curved ditto
 Two Long Curved Knives
 Long Straight Knife
 Vulsellum-pointed Forceps
 Tenaculum ditto ditto
 Sims's Needle-holding ditto
 Self-holding Needle ditto—Tubular Needle

Set Improved Tubular Needles
 Simpson's Wire Twister
 Four various Wire Adjusters
 Two Sharp Hooks
 Sims's Catheter
 Six Straight and six Curved Needles
 Urinal Bag and Tube
 Mahogany Case, lined with Silk Velvet, or
 Solid Blocked

Veterinary Instrument Cases.

POST MORTEM CASE.

Brass Blowpipe—Brain Knife
 Cartilage Knife—Double Tooth Saw
 Dissecting Forceps—Double Hooks
 Hammer—Large Saw—Large Dead-house Knife
 Sharp Elevator—Small Blowpipe

Six Large Scalpels—Twelve Needles
 Three Largo Dissecting Forceps
 Two Chisels, Straight and Bent
 Two Sets of Chain Hooks
 Mahogany Case

VETERINARY-FARRIER'S CASE

One Searching Knife—Pair Pincers—Two Hammers—Two Drawing Knives—Two Rasps
 In Strong Leather Pouch.

VETERINARY OBSTETRIC CASE

Foal Forceps
 Foal Hook
 Foal Hook for Extracting Dead Foal

Foal Hook for Extracting Live Foal
 Two Catheters—Two Foal Catheters
 Neat Case

VETERINARY POCKET CASE.

Bow Forceps—Curved Button Bistoury
 Dog Lancet—Director—Double Fleam
 Double Lancet, Bleeding and Abscess
 Drawing Knife, two Blades
 Pair Silver Probes—Pair Whalebone Probes
 Pair Scissors, Curved

Rowelling Scissors
 Seton Needle—Six Curved Needles
 Six Half Curved Needles—Spring Forceps
 Sharp Pointed Bistoury—Spatula
 Straight Scissors
 Morocco Case

VETERINARY TOOTH INSTRUMENT CASE.

Gowing's or other Improved Instruments, in Neat Case.

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

DIRECTIONS FOR MEASUREMENT

FOR

ABDOMINAL BELTS, ARTIFICIAL LIMBS, ELASTIC STOCKINGS, SPINAL SUPPORTS, TRUSSES, &c.

NOTE.—In all cases, where necessary, state if for Right or Left Side. When practicable, a Plaister Cast of the Stump is desirable.

ABDOMINAL BELTS.—Take Circumference at most prominent part, and at extreme Width of Belt above and below Centre, and state Width of Belt.

ARTIFICIAL ARMS.—1. WHERE AMPUTATION HAS BEEN BELOW ELBOW—

Take Circumference of Stump close to Extremity at middle of remaining part and at Elbow and Middle of Upper Arm, state Length of Arm from under Armpit to Elbow and from Elbow to End of Stump, also state length of sound Arm from Elbow to Wrist, and Size at Middle of Lower Arm, at Elbow and Wrist.

2. WHERE AMPUTATION HAS BEEN ABOVE ELBOW—

Take Circumference of Stump close to Extremity and at Middle of remaining part of Arm; state Length of Stump from Armpit to extremity and Size of sound Arm at Middle of Upper Arm, Elbow and Wrist, and Length from Armpit to Elbow and Elbow to Wrist.—Trace Size of sound Hand with Fingers closed in all cases.

ARTIFICIAL HANDS.—Give Circumference close to End of Stump and 3 Inches above Extremity and below Elbow; state if Amputation has been performed at Wrist Joint or Distance therefrom; state Circumference of other Wrist, and trace size of sound Hand with Fingers closed.

ARTIFICIAL LEGS.—1. WHERE AMPUTATION HAS BEEN BELOW KNEE—

Take Circumference of Stump close to Extremity and at Middle of remaining part, at Knee and Three Inches above Knee, and near the Crotch; state Length of Stump from Knee. Give Measurements of sound Limb around Knee, Calf, Ankle and Instep; also Length of Foot and Length of Limb from Knee to Heel.

2. WHERE AMPUTATION HAS BEEN ABOVE KNEE—

Take Circumference of Stump close to Extremity, at Middle of remaining part and near the Crotch, and state Length of Stump from the Crotch; give Measurements of sound Leg at Knee, Calf, Ankle and Instep; state also Length of Foot and Length of Limb from the Crotch to Knee and from Knee to Heel.

ARTIFICIAL FEET.—State if Chopart's, Pirigoff's, Syme's, or other modified Operation has been performed; give Measurements of remaining part of Foot and at Ankle, and of Sound Foot at Instep, and state Length of Foot. Where possible, a Plaister Mould of sound Foot is preferable.

BUCKET LEG.—Take Circumference of Thigh close to end of Stump—Length from the Crotch to the Ground, and Length of Stump from end to the Crotch—state Length of sound Limb from the Crotch to Centre of Knee, and from latter to Heel Extremity.

KNEELING LEG.—Take Circumference close to the Crotch and at Knee when bent, state Length from Knee to Ground, and give like Length of sound Leg.

LEATHER SOCKET.—Take Circumference close to End of Stump and just below Knee, state Length from Knee to Ground of sound Leg, and from End of Stump to Ground.

PIN LEG.—Take Circumference of Knee when bent, and of Thigh close to the Crotch—state Length from Knee when bent to the Ground and Length of sound Leg from Knee to Heel.

LEG IRONS.—Take Circumference of Limb or Limbs at Calf and Middle of Thigh, at Knee Joint and Ankle—state Length of Limb from Centre of Knee to Heel, and from Knee to Groin, and if for Outward or Inward Curvature.

ELASTIC STOCKINGS, LEGGINGS, ANKLETS, &c.

Stockings—give Circumference at 4, 5, 6, 7, 8 and 9.

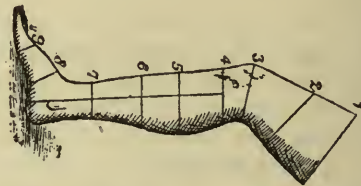

Do. long—do. do. „ all parts, 1 to 9 inclusive, and Length from 1 to 3, 3 to 7, and 7 to 9.

Leggings—give Circumference at 4, 5, 6 and 7.

Anklet do. do. „ 7, 8 and 9.

Knee Cap do. do. „ 2, 3 and 4.

Thigh Piece do. do. „ 1, 2 and 3, and Length from 1 to 3.

SPINAL SUPPORTS.—Take Circumference of Pelvis, Waist and Chest, state Length from under Armpit to Pelvic Brim, and also similar Measurement on opposite Side, and describe Character of Curvature and give specific instructions. In all these cases, where practicable, it is desirable that the case should be measured by a practical mechanician.

TRUSSES.—Take Circumference round the Body 1 inch below Hip, and state whether Rupture is returnable or otherwise.

LITHOTRITES.

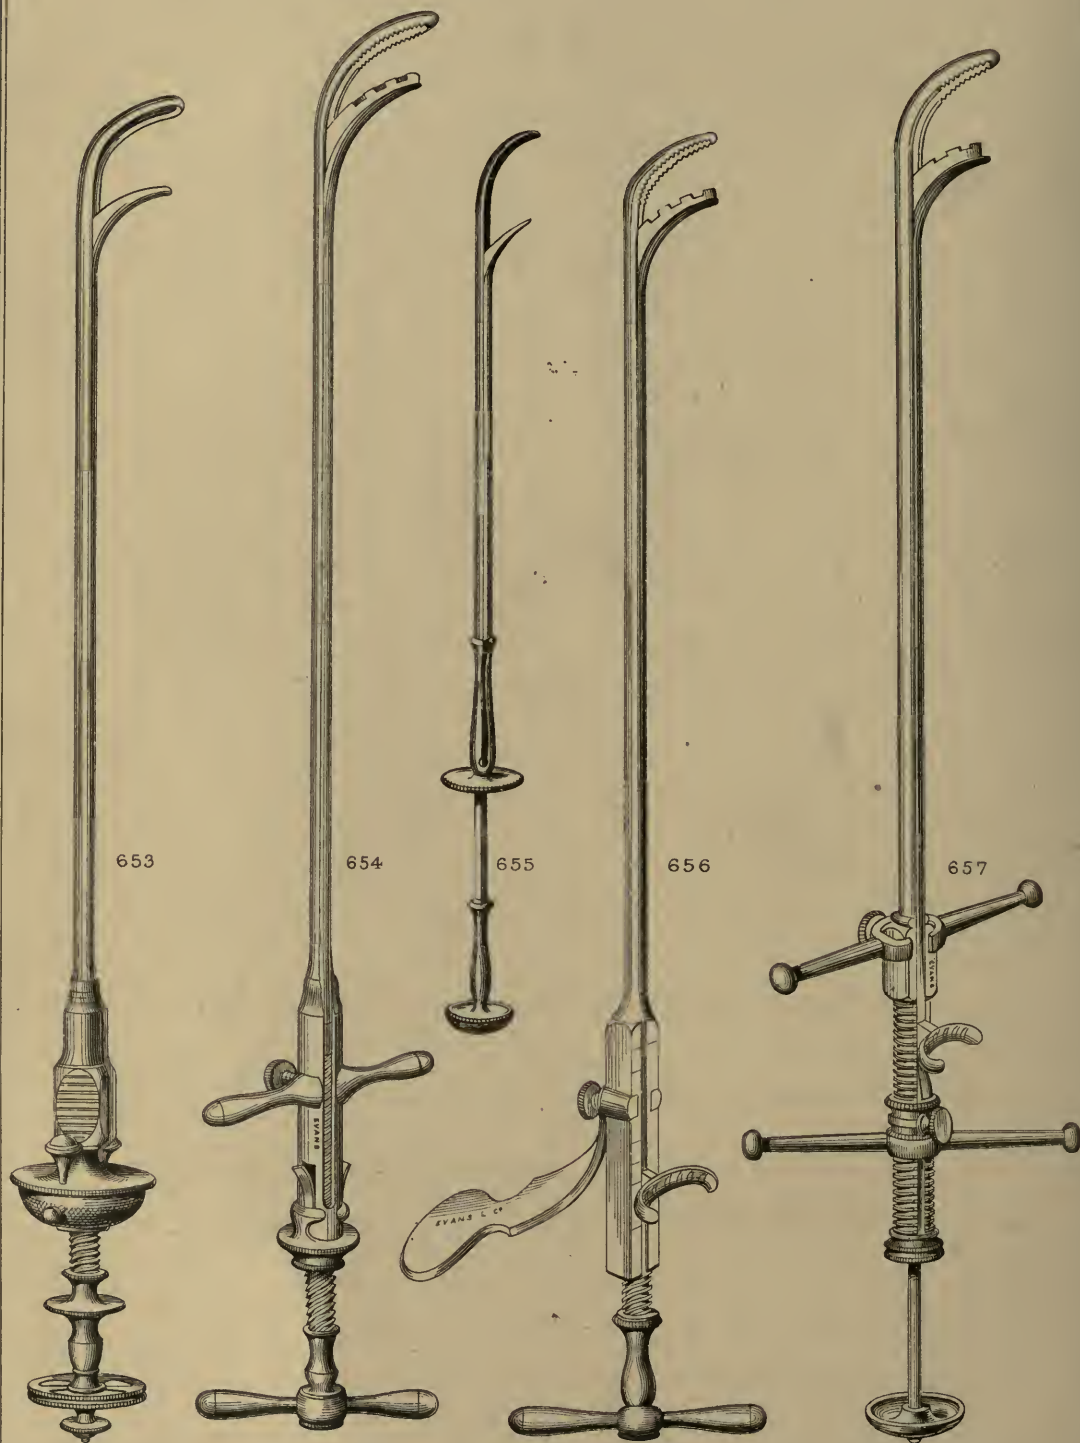

PLATE 60.

LITHOTRITES.

Fig. 653. Civiale's Lithotrite. *907*

By turning the Revolving Cap the Male and Female Screw are readily detached from each other.

„ 654. Improved Lithotrite. *1057*

The Screw power of this Instrument is readily released from the male blade by sliding the Collar upwards.

The change from the Screw to the sliding motion can be effected by pressing the thumb or finger upon the button. This Instrument admits of a firm hold, and also of the most delicate manipulation, and produces little motion or concussion.

„ 655. Urethra Forceps for Extracting fragments. *337*

„ 656. Brodie's Lithotrite. *987*

Capable of being used with or without handle, or the handle can be fixed in any position by means of the small Screw.

„ 657. Weiss's Lithotrite. *907*

Furnishes Percussion and Screw power at discretion.

PLATE 61.

LITHOTRITES—CONTINUED.

Fig. 658. Sir Henry Thompson's Lithotrite. *1207*

„ 659. Canula Forceps for removing small Calculi or Fragments from the Urethra, made with Curved and Straight Blades.

„ 660. Rack and Pinion Lithotrite. *1057*

The Handle with its Pinion extremity, fits into and can be held in a Socket as desired.

„ 661. Sliding Scoop, to fit on Syringe for washing out the Bladder. *457*

„ 662. Ferguson's Lithotrite, with Rack and Pinion. *907*

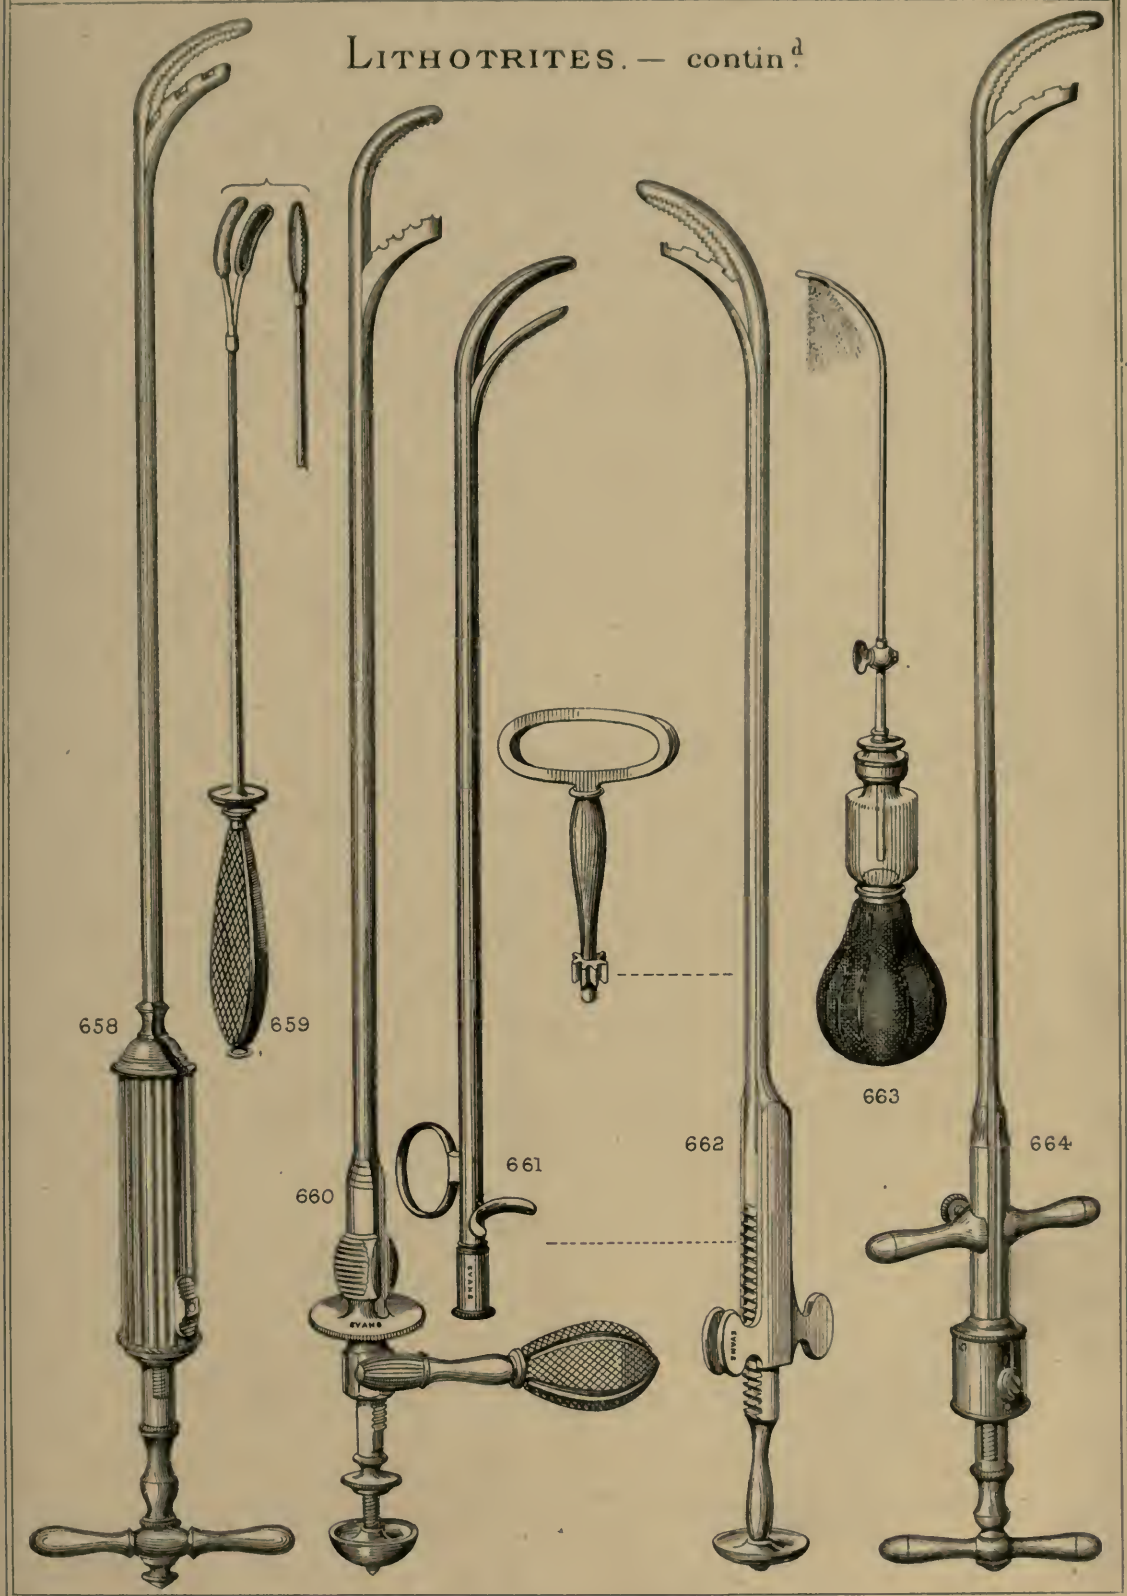

„ 663. Clover's Debris Extractor, for removing small Fragments by Suction. *357*

The Catheter with Stylette being introduced, the Stylette is then withdrawn. The India Rubber Bottle filled with warm water is plugged on the Catheter, and by alternative pressure of the Bottle by the hand and the suction power of the Bottle on release of pressure, the fragments are drawn into the glass cylinder.

„ 664. Lithotrite, with Shifting Action, can be used with or without Screw. *1157*

PLATE 65.

MOFFITT'S SPLINTS AND POUCH.

Fig. 707. Moffitt's Splints for Fore Arm. 57

„ 708. Moffitt's Splints for Upper Arm. 57

After extension and proper adjustment of the fractured limb and dressings as may be necessary, the Elbow should be bent to a right angle, and afterwards the short splint placed on the inside and the long one on the back of the Fore-arm or the outside of the Upper Arm, and the straps then buckled sufficiently tight to prevent motion of the parts. Then place the hand and Fore-arm across the Chest and support with the lesser for the Upper Arm and larger Arm Sling for the Fore-arm.

„ 709. Moffitt's Splints for Thigh. 77

After extension and adaptation of the limb and dressings as may be necessary, the short splint should be placed on the inside close up to the Perineum and the long splint on the outside, and then the straps buckled, one just below the Knee, the upper one round the Hips, and the two middle ones round the Thigh.

„ 710. Moffitt's Leg Splints. 77

After extension, adaptation and dressing as may be necessary, the short splint should be placed on the inside, the long one on the outside of the limb, and the straps buckled. The lower one in figure of 8 form round the Foot and lower ends of the splints.

„ 711. Moffitt's Field Pouch. 28

„ 712. Improved Fracture Box and Cradle. 127

The Box which holds the Leg being supported from a horizontal bar.

„ 713. Hand and Arm Splint for Fractured Phalanges, &c.

Various sizes. Right and left.

PLATE 72.

MISCELLANEOUS INSTRUMENTS—CONTINUED.

- Fig. 777. Improved Hydrocele Syringe, with Pump action. *9/-*
- „ 778. Skin Grafting Scissors. *30/-*
- „ 779. Spring Abscess Lancet. *21/-*
- „ 780. Scarificator for deep-seated Abscess. *32/-*
- „ 781. Cupping Scarificator, with twelve Blades, capable of use with four, six, or ten Lancets. *45/-*
- „ 782. Redfern Davis's Instrument for the Radical Cure of Inguinal Hernia. *45/-*
- „ 783. Wurtz's Instrument for the Radical Cure of Hernia. *84/-*
- „ 784. Valentin's three-Bladed Section Knife. Also made with two Blades. *25/-*
- „ 785. Operation Table, with sliding-back support and two Flaps, adjustments for fixing in various positions, and Mattress. *£12-00*

PLATE 73.

GALVANIC BATTERIES.

Fig. 786. Improved Galvanic Battery and Apparatus. *L 13-10-0*

Combines lightness and portability with great power and facility of use.

It consists of Four Pairs of Carbon and Zinc Plates, with porous Cells, to be charged with diluted Sulphuric and strong Nitric Acids; Two Bottles containing the Acids, Electrodes, &c.; all enclosed in a neat portable Case.

The Conduction Wires are fastened on outside the Case and by means of a Lever the number of Cells in action can be easily regulated.

The Galvanic Ecraseur, Straight and Curved, is shewn in connection on the left of the Plate, and the Porcelain and Platinum Cautery on the right.

„ 787. Gaiffe's Portable Constant Current Battery, or Bichromate of Potash Battery. *28/-*

Coils, Battery and Accessories, are fitted in a neat Mahogany Case, Six Inches long and Six Inches wide.

„ 788. Stohrer's 40-Cell Constant Current Hospital Battery, of great power. In stout Oak Case.

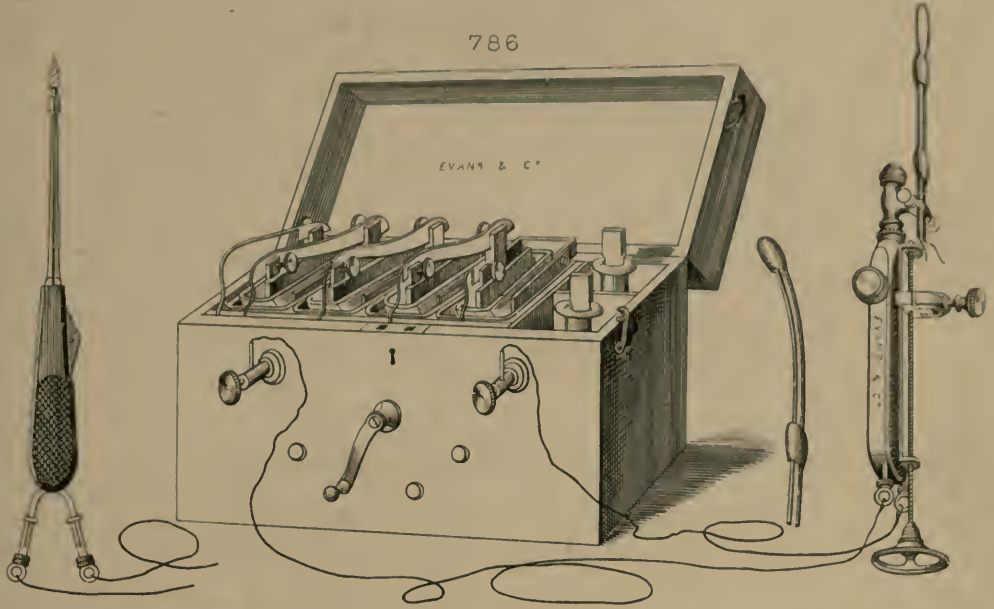

This Battery is made in three sizes, viz.: 12, 30 and 40 cells, and is supplied with Electrodes for applying Electricity to various parts of the body, Galvanic Ecraseurs, Porcelain and Platinum Cautery, &c.

ASPIRATORS SPHYGMOGRAPH. &c.

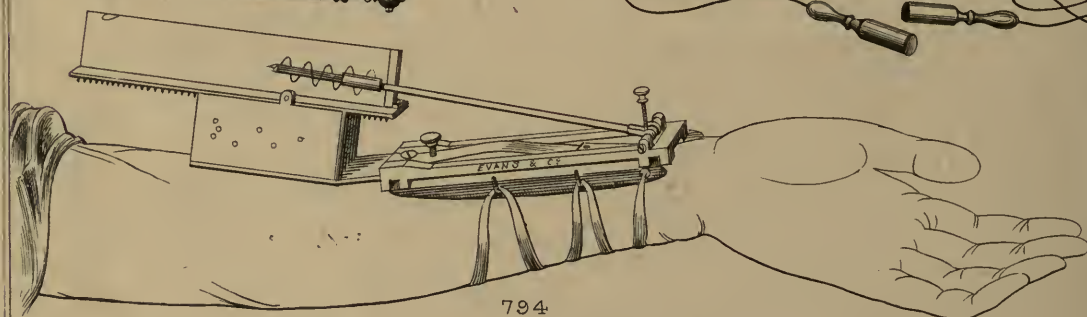

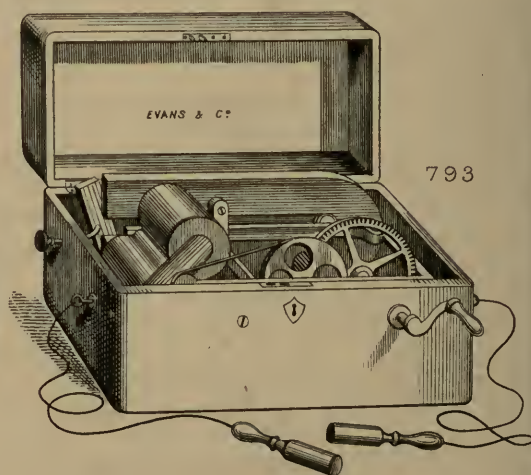

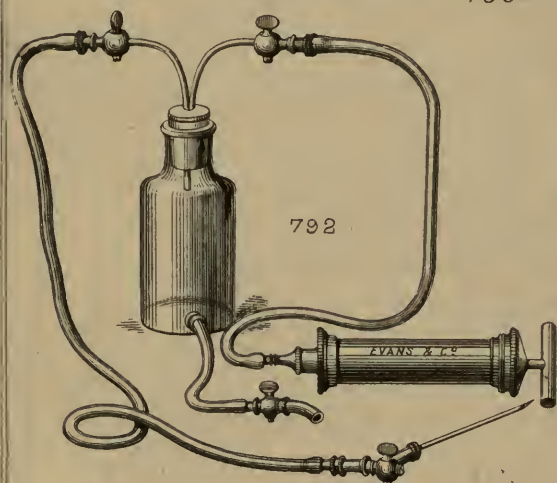

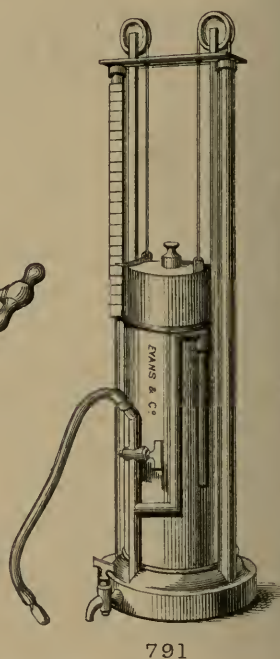

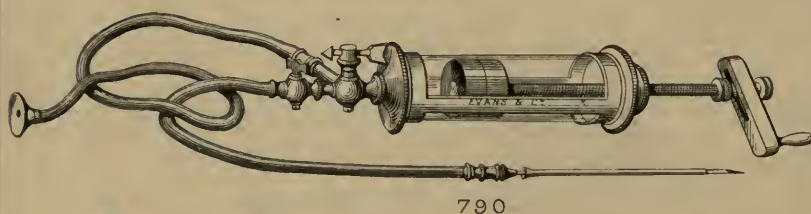

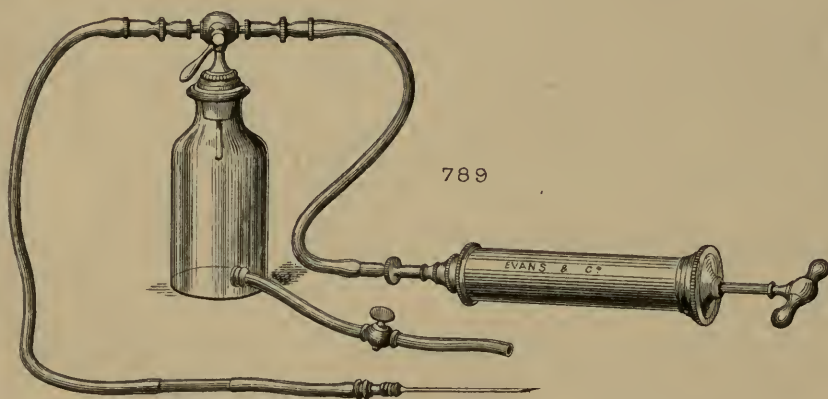

PLATE 74.

ASPIRATORS, SPHYGMOGRAPHS, &c.

Fig. 789. Modification of Dieulafoy's Aspirator, with Reservoir and Exhausting Syringe and five sizes of Steel Needles. *110/*

„ 790. Evans and Wormull's Improved Aspirator, with Screw Action. *105/*

The Sliding Handle enables the power to be regulated at discretion.

The arrow over the valve when pointing to the exit tube indicates it is in action, and when the reverse that it is off.

„ 791. Hutchinson's Spirometer, for Testing the Respiration and Vital capacity of the Lungs. *84/*

„ 792. Improved Pneumatic Aspirator, with two-way Stop-cock and powerful Exhausting Syringe, Elastic connecting Tubes and set of Needles. Can be adapted to any Bottle.

„ 793. Electro-Magnetic Machine, with modern improvements. In neat Mahogany Case. *92/*

This machine is simple in use, easily worked, and affords considerable power which can be readily regulated.

„ 794. Improved Sphygmograph, with circular action for graphically indicating the character of the Pulse, &c. *L 8.17.0*

PLATE 75.

PORTABLE MINIATURE DISPENSARY.

Fig. 795. Portable Miniature Dispensary, shewn unfolded and open.

£ 3-5.0 5/- 15.0

CONTENTS:—5 dozen Bottles of various sizes, adapted for Chloroform or Ether, Collodion, Styptic Colloid, Blistering Fluid, and from 40 to 60 remedies suitable for the requirements of general or special practice and emergencies. The Bottles can be labelled and filled as desired.

Instruments can be selected to suit any special requirements.

Among those more generally included are—

Dressing Forceps — Artery Forceps — Caustic Case — Portable Male and Female Catheters — Scissors — Gum Lancet — Probes and Director — Hernia Knife — Straight and Curved Bistoury, Blunt and Sharp Pointed — Spatula — Throat Probang — Clinical Thermometer — Suture and Ligature Tablet — Hypodermic Syringe — Finger Knife.

SUNDRIES.—Camel Hair Brushes — Measure — Pill Boxes — Lint and Plaister — Oil Silk — Cotton Wool — Test Tubes.

„ 795a. Shews the above folded up, and its facility for carrying on Horseback, in Country Practice, &c.

EVANS & WORMULL, 31, STAMFORD STREET, LONDON.

INHALERS.

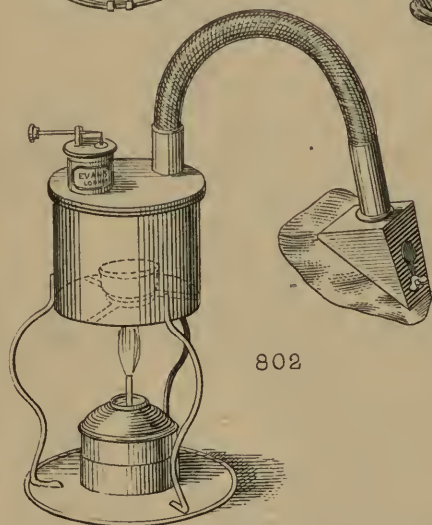

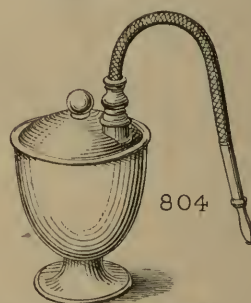

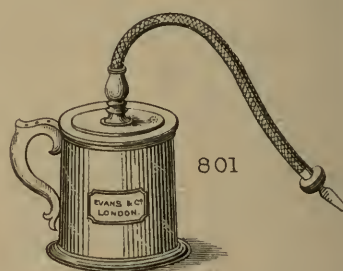

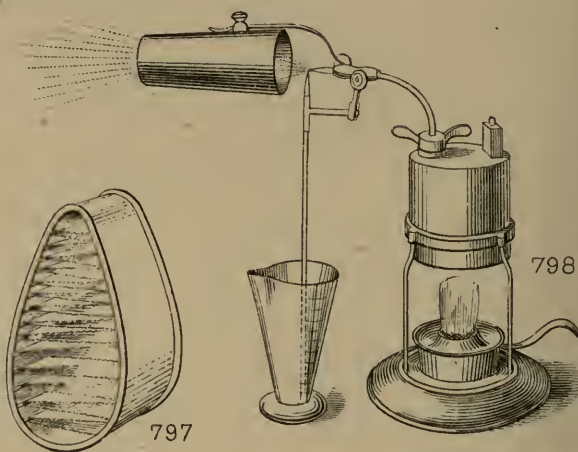

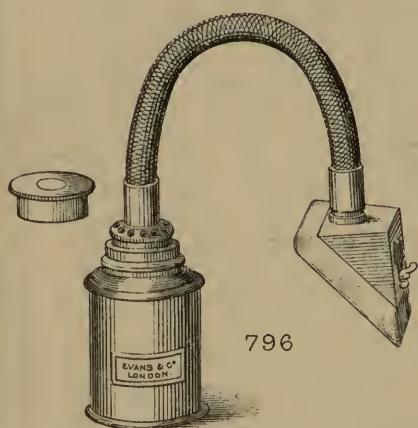

PLATE 76.

INHALERS.

- Fig. 796. Snow's Chloroform Inhaler. 537
- „ 797. American Æther or Chloroform Inhaler. 10/6
- „ 798. Lewin's Atomizer, for the Inhalation of Medicated Spray. 257
- „ 799. Skinner's Folding Chloroform Inhaler. 10/6
- „ 800. Maw's Double Valve Earthenware Inhaler. 9/6
- „ 801. Mudge's Metal Inhaler. 11/6
- „ 802. Steam Inhaler, for Medicated Vapour. 357
- „ 803. Electro-Plated Chloroform Inhaler. 257
- „ 804. Evans and Wormull's China Inhaler, for Medicated Vapour. 9/6

PLATE 77.

ENEMAS AND STOMACH PUMPS.

Fig. 805. Evans and Wormull's Patent Spring Enema Syringe,
with Douches adapted for Ear, Vagina, Nose,
Rectum, &c. 21/

Being worked by the action of a Spring, only one hand is required for using it.

„ 806. Constant Stream Brass Enema, fitted with both Rectum
and Vagina Pipes. 15/

„ 807. Improved Telescopic Fountain Reservoir Enema Appa-
ratus—can be fitted with Vaginal Pipe. 35/

„ 808. Brass Enema, fitted with two sizes of Vaginal Pipes. 18/ 53 57

„ 809. Stomach Pump and Enema combined, with Flute Key
Lever, and fitted with O'Beirn's Stomach and Rectum
Long Tubes, Mouth Gag, &c. 53/

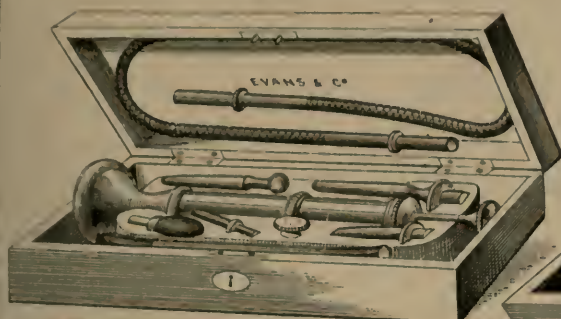

„ 810. Irrigateur Enema Syringe, with Spring Action. 33/

NOTE.—All the above Apparatus are fitted in neat Mahogany Case with Lock and Key.
